

How to fix leaking showers

CROMMELIN SHOWER SEALER is a permanent water based penetrating sealer to fix leaking showers.

How to fix leaking showers

SHOWER SEALER is a unique sealant that creates a dam wall inside your grout. It is ideal for stopping leaks through your grout with the ability to bridge minor cracking.

YOU WILL NEED

A 500ml container is sufficient to seal an average shower cubicle.

EQUIPMENT

Simply brush onto grout areas with a small artist's brush.

NUMBER OF COATS

SHOWER SEALER is a one coat system.

DRYING TIME

Allow 30 minutes drying time before using shower.

CLEAN UP

SHOWER SEALER is easily cleaned up with water before it dries.

TIPS

Do not let shower sealer dry on the surface of the tile. Remove excess with damp cloth. Ensure shower is used within 1-4 hours of applying SHOWER SEALER.

For detailed instructions on suitability, surface preparation and application steps, please refer to the product label.

Waterproofing & Sealing

Customers need to undertake their own assessment to determine the suitability of a product for the particular use intended. As the performance of any product is subject to a wide variety of different surface types as well as environmental and surface-specific conditions, it is essential that a sample of the product be applied to the intended area of use to ensure it is acceptable in appearance and finish and that it perform on the specific surface.
