How to seal concrete floors & provide a decorative finish

CROMMELIN CONCRETE FLOOR SEALER & CONCRETE FLOOR STAIN are water based and quick drying. An effective and economical treatment prior to, or as an alternative to, carpets, tiles or other floor coverings.

How to seal concrete floors & provide a decorative finish

A revolutionary clear or stained finish used to transform plain concrete into an attractive yet cost effective dust-free floor. CONCRETE FLOOR STAIN can be added to CONCRETE FLOOR SEALER to provide a coloured stain finish.

YOU WILL NEED

4 litres of CONCRETE FLOOR SEALER will treat approximately 10m² of concrete floor. 50ml of CONCRETE FLOOR STAIN should be mixed with 4 litres of CONCRETE FLOOR SEALER.

EQUIPMENT

Either a soft broom or mop is the only equipment needed to give the best lime-washed appearance.

NUMBER OF COATS

2 coats are required to give a dustproof and hardwearing decorative finish to your floor.

DRYING TIME

Allow 30 minutes between coats.

Leave the floor for 4 hours to cure before replacing your furniture.

CLEAN UP

CONCRETE FLOOR SEALER is easily cleaned up with water before the product dries.

TIPS

Apply to a dry surface. To test for moisture, tape down a clear plastic sheet over a small section of the surface to be treated in direct sunlight and leave for 2 hours. If moisture appears on the underside of the sheet the area is too damp.

For detailed instructions on suitability, surface preparation and application steps, please refer to the product label.

Should you have any project specific questions or require further product information please do not hesitate to contact us.
